

# IGGYS DETAILING

AUGUST 2025

■ MY TOPIC

## DESCRIPTION

My website will be the website for my detailing company that i've been doing for the past five years. My website will allow clients to view different packages they can purchase along with various before and after photos. The goal of my website is to consolidate before/after photos/videos, pricing, packages, and reservations to all be in one place. Detailing is a complex service to provide and having all this information in one place will make my business look much more professional compared to what i've been doing. Which was just telling my clients to view my facebook and then contact me somehow to arrange an appointment.
